*\*\*\* These questions are designed as a starting place for your facilitation. We encourage you to look through the sample questions and modify them to your specific group. These questions are not meant to be a comprehensive list but rather a grid to help you start thinking through the talk and how you think your group may have responded towards it. These questions will work better if you have taken notes of specific quotes, ideas and questions from what was said.*

If you were here last week:

\*What did you do with your dollar?

\*How did that experience impact you?

Do you struggle with focusing solely on the immediate - focusing on today rather than an eternal perspective?

When you think about Jesus returning what goes through your mind? How do you feel?

Take time to discuss the five points James gave.

1. We've been given something to invest.
2. We've been commanded to invest it.
3. We've been given some time to invest it.
4. We've been given the promise of his return.
5. We've been given the promise of disproportionate rewards for those who are faithful.

If we all were fully convinced of these points how would our decisions/actions/lives change?

Are you spending your life or investing your life?
